Career Objective

Passionate Frontend Developer with a strong MERN stack foundation and hands-on experience in building responsive, user-friendly web applications. Skilled in HTML, CSS, JavaScript, React.js and Next.js, APIs, with the ability to convert Figma designs into functional interfaces. Committed to delivering impactful solutions and contributing effectively in collaborative environments.

Skills

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Bootstrap, Tailwind CSS, ShadCN UI.

Backend: Node.js, Express.js, MongoDB, Prisma ORM, PostgreSQL, Firebase, JWT.

Tools: VS code, Git, GitHub, Postman, Vercel, Figma.

Soft-skills: Teamwork, Quick learner, Responsibility.

Projects

1. One Orbit (Project Management & Team Collaboration Tool) (Team project)

[Live Site](#) [Github](#)

A full-stack platform that connects clients and developers, making collaboration simpler, transparent and more efficient.

Features:

- Secure REST API with JWT authentication, role authorization, and optimized database queries.
- Reusable component architecture using modern React patterns for scalable frontend development.
- Kanban board with sprints & tasks organizes workflows efficiently so teams manage projects smoothly.

Technologies: Next.js, MongoDB, Tailwind CSS, Aply, Stripe, Nodemailer.

2. Bookshelf (Online Library)

[Live Site](#) [Github Client](#) [Github Server](#)

A digital platform to add, edit, delete and explore books.

Features:

- Authors can add, update, and remove books from their personal collection anytime, from anywhere.
- Users can explore detailed book information and share thoughtful reviews to provide useful feedback easily.
- The platform offers a clean, responsive, and intuitive interface for smooth navigation across all devices.

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Axios, Firebase.

3. Market Track (Fresh Vegetable Market)

[Live Site](#) [Github Client](#) [Github Server](#)

Market Track connects all stakeholders-users, vendors, and admins-offering clear product visibility and reliable payment handling for smarter business decisions.

Features:

- A role-based authentication system ensures secure access. Admin has all the power and full control over users.
- Vendor content management system allows easy updates and admin approval required before shown publicly.
- Optimized backend data fetching improved by 30% using TanStack Query leveraging custom React hooks.

Technologies: React.js, Node.js, MongoDB, Express.js, TanStack Query, Tailwind CSS, Firebase, Stripe.

Education

Bachelor of Science in CSE | CGPA: 3.61 out of 4.00

Manarat International University

Savar, Dhaka
